

## Privacy Policy for Webinars

By clicking this button, you register for the webinar and submit your details to the webinar organiser so that they can contact you regarding this event. In the context of webinars which we organise together with partner companies, your personal data may be transmitted to these partners for the purpose of conducting the webinar.

By registering for the webinar, you consent to Würth Elektronik eiSos GmbH & Co. KG (or, depending on your location, an affiliated sister company of the Würth Elektronik Group) and, in the case of webinars which we organise jointly with partner companies, these partner companies may process the data you have provided for advertising purposes in order to inform you by post, telephone or e-mail about products or services from Würth Elektronik or our partner companies.

You may revoke this advertising consent in whole or in part at any time - also with regard to advertising measures by our partner companies - by notifying [datenschutz@we-online.de](mailto:datenschutz@we-online.de). Of course, such a cancellation will not have any negative effects on your participation in this webinar.

Please note that we do not accept any liability for advertising measures which a partner company carries out despite your revocation - which we have immediately forwarded to this partner company.

Further information on data processing is available at: [www.we-online.de/datenschutzhinweisveranstaltungen](http://www.we-online.de/datenschutzhinweisveranstaltungen)
